## Professional Summary

Academic background in Arabic Language from the Faculty of Arts, contributing to a structured understanding of content organization and clear, systematic writing, alongside practical specialization in Front-End Development. Focus on building interactive web interfaces using HTML, CSS, JavaScript, and React.js with an emphasis on usability and user experience. Experience includes developing complete projects from scratch and managing source code through GitHub. Solid understanding of logical content structures to support clear and intuitive user interface design, with implementation of responsive design principles to ensure compatibility across various screen sizes. Utilization of modern tools such as Vite and React Router to build efficient, maintainable front-end applications, with a clear objective of delivering stable and scalable UI solutions aligned with current market requirements.

## Education

### Bachelor of Arts | Arabic Language Department

Alexandria University | Expected Graduation: 2027

## Professional Experience

### Front-End Developer | Freelance Projects | 2024 - Present

- Developing interactive user interfaces using HTML, CSS, JavaScript, and React.js to deliver clear and consistent user flows.
- Implementing responsive layouts using Flexbox and CSS Grid to ensure compatibility across multiple devices and screen sizes.
- Building reusable components and organizing project structure to support maintainability and future scalability.
- Managing application state using React Hooks such as useState and useContext.
- Handling source code management, version control, and release tracking using Git and GitHub.

## Training Courses

- Front-End Development Bootcamp | Self-Study
- Git and GitHub Basics | Self-Study

## Key Projects

### E-Commerce Website Using React | Independent Project | 2025

- Description:** Development of an e-commerce web interface focused on product display and purchase flow through a clear and structured user experience.
- Role:** Implementing the user interface using React and Vite, managing application state for product listing and shopping cart functionality using useState and useContext, implementing page navigation with React Router, and building reusable components with responsive design principles.
- Personal Website | Portfolio | Independent Project | 2025**
- Description:** Creating a personal portfolio website to present projects and technical skills in a structured format targeting employers.
- Role:** Developing the website using React, implementing page navigation with React Router, enhancing the user interface, and deploying the website for public access.

### Landing Page Using HTML and CSS | Independent Project | 2024

- Description:** Designing a modern landing page focused on presenting structured content with smooth navigation.
- Role:** Designing and developing the page from scratch using HTML and CSS, applying Flexbox and CSS Grid for responsive layout, and improving page structure and accessibility.

## Skills

**Soft Skills:** Communication | Team Collaboration | Time Management | Commitment | Accuracy | Problem Solving | Self-Learning | Organization | Responsibility | Adaptability | Focus | Continuous Development | Fast Learning.

**Practical Skills:** Requirements Analysis | User Interface Development | Component Management | Code Structuring | API Integration | Interface Testing | Performance Optimization | Responsive Design Implementation | Version Control Management | Project Structuring | Website Deployment | Code Documentation.

**Technical Skills:** HTML5 | CSS3 | JavaScript (ES6+) | React.js | React Router | Axios | Git | GitHub | Vite | Responsive Design | Flexbox | CSS Grid | Microsoft Excel | Microsoft Word | Microsoft PowerPoint | Microsoft Outlook | Microsoft Teams | Windows | Zoom | Typing.
